SynergiFactory

8 Key Elements and Advantages

1. **Risk Mitigation:** Expert guidance through the complexities of Ukrainian laws, labor market, and other country-specific factors, reducing market entry risks.
2. **Flexible and Scalable Manufacturing Solutions:** Adaptable operations allowing partners to start small and expand as needed, optimizing production efficiency.
3. **Comprehensive Customized Manufacturing Services:** End-to-end support covering every aspect of manufacturing, from raw material sourcing to regulatory compliance.
4. **Economies of Scale and Scope:** Cost savings through shared resources, leading to greater efficiency and cost-effectiveness.
5. **Collaborative Approach:** A supportive network fostering innovation and collective efficiency among partners.
6. **Simplified Export/Import Processes:** Easing cross-border transactions, especially beneficial for Ukraine, a non-EU country.
7. **Optimized Supply Chain Collaboration:** Reduced transportation costs through consolidated shipments.
8. **Faster Market Entry:** Quick market access or expansion through established infrastructure and local expertise.

SynergiFactory

Innovative Business Model

- Run the manufacturing process under our name as:

***YOUR CONTRACT
MANUFACTURING PARTNER***

- Or establish a manufacturing organization under your name and operate it for you – as:

***YOUR INTEGRATED
MANUFACTURING PARTNER.***

SynergiFactory™ approach enables us to deliver **ALL or ONLY PART** of the services necessary for successful factory operations including:

- Production infrastructure, HR & recruitment, accounting & payroll, HSE, production planning, warehouse management quality control, maintenance & engineering support, customs service, and IT and legal support

Contract Manufacturing

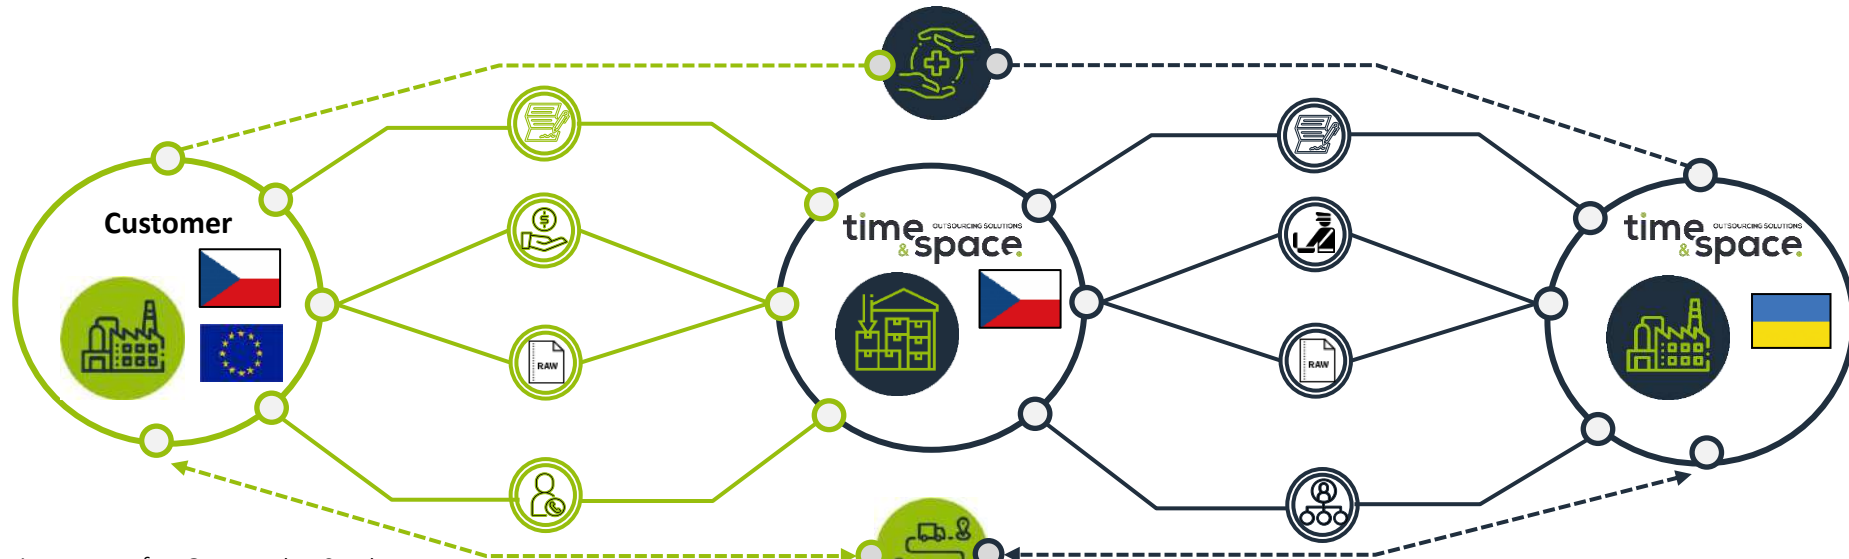

Entire services and resources which are needed to manufacture a product for a business partner under 100% responsibility for the manufacturer. Business partner **does not need** to have legal entity in Ukraine!

Collaborative approach where business partners share with manufacturer responsibilities and resources in the production process. Business partner **needs** to have legal entity in Ukraine.

Integrated Manufacturing

Standard Business Model

-  Cooperation Agreement for Outsourcing Services on the basis of price per piece or produced hours based on agreed production norms
-  Payments for Outsourcing Services in CZK or EUR
-  Raw Material are given free of charge – with Proforma invoice or sold to Time&Space CZ
-  Dedicated Czech or English Speaking Project Manager
-  Time & Space is picking up the raw materials and bringing back the finished products in a round trip/milk run procedure – lead time minimum 10 days

-  Agreement for fulfilling of the Outsourcing Services
-  Materials/Products will be exported/ imported on the basis of a tolling regime. Time&Space is 100% responsible for these customs activities – Business partner will not have any difference as usual business within the European Union.
-  Raw Material are given free of charge – with Proforma invoice
-  Cross functional project team supports
-  Business Partner is communicating directly with production plant in Ukraine – with English speaking management team (HR, finance, logistics, production, quality)
